

# Outskill the competition with AI

Close skills gaps with AI and collaborative learning. Seamlessly translate skills insights into action with targeted skills-based learning campaigns for faster upskilling and reskilling.

## Build a source of truth for skills with AI

Let AI keep a pulse on the skills inside and outside of your organization.

- AI-powered skills ontology
- Skills assessment
- Skills dashboard

## Outperform today with upskilling campaigns

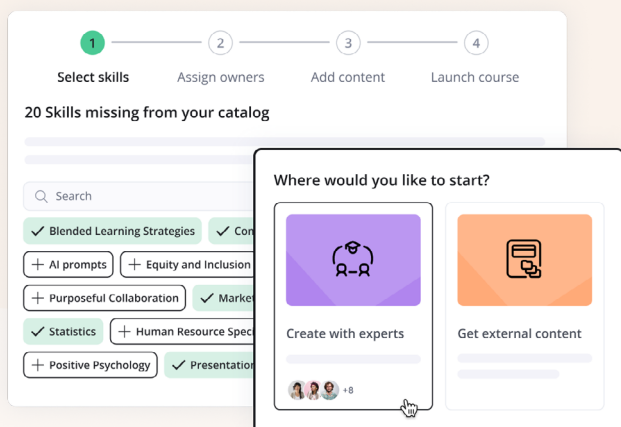

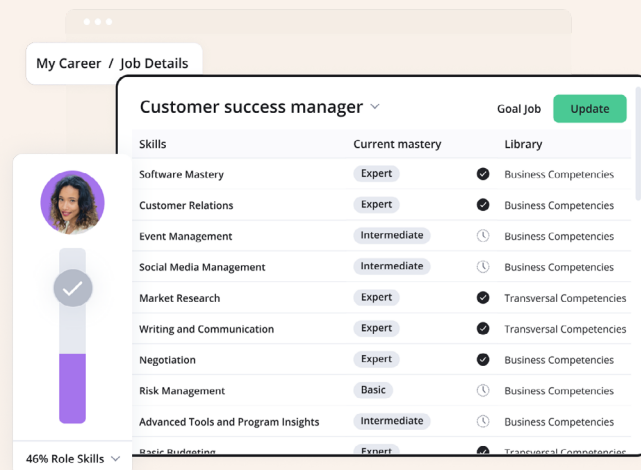

Cue the right training to the right learner at the right time, map skill progression, and allow managers to assess their teams.

- Upskilling dashboard
- Role progression mapping
- Upskilling workflows

## Outskill tomorrow with reskilling campaigns

Develop career-advancing skills and unlock internal mobility as a strategic workforce advantage.

- Reskilling dashboard
- Role advancement mapping
- Reskilling workflows

## Close content gaps with your internal SMEs

Let AI surface the best internal SMEs or off-the-shelf content to support you with courses tailored to your business needs.

- Skills catalog dashboard
- Catalog skills tagging
- Profile tagging

## Partner with our skills experts

Lead your organization's skills-based learning strategy with the guidance and support of our team of top-tier skills experts.

- World-class implementation
- Step-by-step guidance and support
- Ongoing coaching from industry experts

Last year, we had 1500 people waiting for training, and we had no solution to address this. With 360Learning, we are now 800-900% more efficient, we managed to exceed our initially planned volumes, upskill our L&D teams and improve our customer satisfaction!

**Julia Vincent**

Director, Client Service Excellence, AlphaSights

## Powering L&D at 2,300+ organizations

360Learning is already helping over 2,300 clients to transform their organizational culture through Collaborative Learning.
