

Next-Generation Learning Measurement

Explorance MTM™: Methodology, Automation, & AI for Business Impact

Drive Business Forward with the Leading Learning Measurement Software

Explorance MTM helps organizations continually measure, evaluate, and maximize the impact of their Learning investment to build a competitive workforce. From both the learner quantitative and qualitative perspectives, for L&D leaders to understand Learning deeper. To further drive and story tell business impact.

Align L&D Metrics with Business Outcomes – Proven Methodology

Grounded in the science of Learning measurement and built for business, the MTM Smartsheet methodology enables MTM users to benefit from renowned thought leaders' expertise in the L&D field. As well, consistent use of this methodology for over 20 years has granted MTM the largest repository of Learning measurement benchmarks in the world.

Understand the Why Behind the What – L&D Measurement Augmented with Al

MTM just got bolstered with a **new Learning-specific Al qualitative analytics module** that distills data-driven actionable feedback from the masses of comments written by MTM survey respondents. **Named MLY [milee] after Explorance award-winning Al software**, this new Al module of Explorance MTM provides Learning leaders with a deeper understanding of the learners' needs and expectations, by determining sentiment, identifying feedback patterns, and highlighting bottom-up recommendations for continuous improvement.

Streamline Learning Measurement - Advanced Features

Count on a solution that provides more capabilities – wherever business takes you.

- MTM Portfolio Model: Four key areas to create value through Learning.
- Blended Learning Module: Flexible measurement options for a diversity of blended programs (multi-day, multi-modal, conference, etc).
- Automated Role-based Insights: Through automated role-based and dashboard capabilities.

Aim for Continuous Improvement - The Power of Automated Insights

With MTM superior automation capabilities – from feedback collection to insight dissemination – MTM users spend less time analyzing data, and more time acting on it.
