# Realize it®

Engage all stakeholders when training is business-critical.

33%

Only about 33% of employees say their company is helping them **improve their skills or gain new ones**.

Mathematical expressions shown in background graphic:

$$If\ A_0^- < V < A_0$$

$$y = \frac{1}{\sigma\sqrt{2\pi}}\ e^{-\frac{(x-\mu)^2}{2}}$$

$$\frac{1}{2}\left(\frac{V - A_0^-}{A_0 - A_0^-}\right)$$

FOR

Learners

Build training and learning experiences that are precise and verified to know learners are prepared.
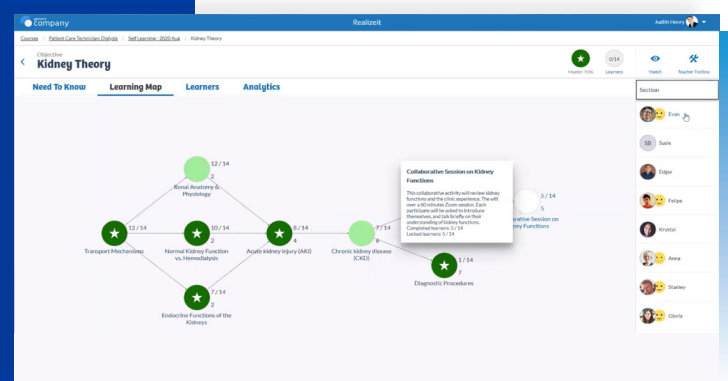

- Critical job knowledge
- Gaps and opportunities
- Immediate feedback and guidance
- AI-powered practice and reinforcement

FOR

Coaches & Trainers

Empower coaches and trainers to deliver precision training and coaching experiences for better outcomes

- Clearly track knowledge progression
- Easily identify and fill in gaps in knowledge
- Know where to invest your time and focus
- Train with more precision and accuracy

Managers & Leaders

Manage individual and team readiness with better insights to mitigate risk.

- Know precisely who is and who is not qualified
- Identify specific knowledge gaps on your team
- Ensure your frontline staff's knowledge and skills are up to date
- Never lose sight of achieving your goals & objectives

Designers

Advanced tools to build training that is precise, verified, and AI-powered.

- Start with current content or build new
- Make one-time updates that disseminate everywhere
- Easy-to-use authoring suite to create adaptive learning experiences
- Analytics to streamline and simplify maintenance and continuous improvements

69%

More than **two-thirds** of companies say that an inability to measure training and learning's impact represents a challenge to achieving critical learning outcomes.

Ready to deliver business-critical training worthy of your C-Suite's trust?

We'd love to hear from you!
