skillable

Serious about building skills?
You need an experiential approach.

Build job readiness and get meaningful skills intelligence with hands-on learning experiences that are tailored to fit your environments and scenarios.

Build skills

Validate the skills your people have or hone-in on potential gaps by assessing their skills with our hands-on learning experiences.

Our turnkey gallery of more than 1,200 templates can be used, modified or customized to help you move quickly in building or validating the skills of your people in key technical domains, such as:

- ✓ Cybersecurity
- ✓ Cloud computing (e.g., AWS, Azure, GCP)
- ✓ Artifical Intelligence (AI)
- ✓ Digital Transformation
- ✓ (e.g., analytics, insights)

Practice skills

You've heard it before: Practice makes perfect. The same applies to developing skills: We learn best by doing.

Modernize the traditional skill journey and learning pathways to include hands-on and experiential learning opportunities in real-world scenarios.

Easy to customize templates and a rich authoring studio give you the ability to fully customize hands-on labs to fit your needs.

Validate skills

Know it? Prove it!

Our skill challenges include job and environment-specific scenarios for the ultimate verification of capability.

Each experience is scored, giving you and your people real-time validation of skill level or skills attained, as well as valuable skill data.

Skillable provides hands-on experiences to help you develop and validate technical and digital skills for your employees, customers and partners.

The leader in experiential-based learning with the results to back it up.

▶ 5-time 2023 Brandon Hall Group Award winner for categories ranging from AI business impact to education delivered through technology.
